beldam lascarfoil

beldam lascarfoil crimped graphite tapes are produced using the latest CNC controlled slitting equipment, this gives consistently accurate tape widths from 10mm upwards and minimum material wastage.

beldam lascarfoil tapes can be supplied adhesive backed. Applications include:

- In-situ pump and valve gland packing
- Manufacture of graphite Die-formed rings
- Filler for metal jacketed type gaskets

beldam lascarfoil is supplied in a thickness of 0.5mm and a density of 1.0g/cc unless otherwise stated.

All material below is supplied in coiled clear plastic boxes.
