## **beldam pathan packing**

**beldam pathan packing** is a reliable packing which ensures trouble-free service between dry dockings. Problems that were overcome in the development of this packing included the effects of vibration shock, age deterioration and the alterations in temperature conditions that occur at varying latitudes. For stern glands and rudder post glands.

**beldam pathan packing** is manufactured from the finest selected flax yarns. Each yarn is treated with a salt water resistant lubricant of high melting point combined with the finest ground graphite.

**beldam pathan packing** reduces wear on the liner to a minimum even when the shaft is "down" and ensures long and trouble-free service.

<b>Max. Temp</b> 120°C	<b>Max. Pressure</b> 70 bar	<b>pH range</b> 5 – 9	<b>Max. Shaft Speed</b> 6 m/s
